***Allowable Subject Matter***

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach a compound stool including a seat vertically movable relative to a supporting base responsive to a user's weight on the seat structure to store kinetic energy in a spring to aid users entry on and exit from the stool, comprising in combination: a peripherally defined conic base having a truncated top and a bottom disk to define a medial base chamber; seat structure having an uppermost seat disk with at least three spacedly arrayed depending support shafts extending for slideable motion through seat support holes defined in the truncating top of the base and extending into the medial base chamber to communicate with an upper spring plate in the medial base chamber; and spring structure including a compression spring between the upper spring plate and the bottom disk to bias the upper spring plate to an upward position in the medial base chamber but allow motion of the upper spring plate downwardly against spring structure bias responsive to weight of a user on the seat disk, as specifically claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Art Unit: 3636

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kudrna, Roth, Stall et al, Miller, Lee, Lu, and Swiderski all teach devices similar to that of the instant invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laurie K. Cranmer whose telephone number is (571) 272-6855. The examiner can normally be reached on M-W.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter M. Cuomo can be reached on (571) 271-6856. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
